Communication:
Application Software on the iPod Touch & the iPad

ArtikPix, by RinnApps

Flashcard matching activities to address articulation difficulties. Includes recorded audio, voice recording and data collection to help children with speech sound delays.

Expressionist, by AdastraSoft

120 commonly used expressions modeled by cartoon characters. None of the pictures require encoding. Categories of expressions include: Greetings, Feelings/Emotions, Senses, Health/Well-being, Actions/Activities, Requests, and Questions.

First- Then Visual Schedule, by Good Karma Applications

An audio-visual prompting tool that shows daily routines, events, or the steps needed to complete a specific activity for individuals with communication needs,

Grace – Picture Exchange for Non-Verbal People, by Steven Troughton-Smith

Allows users to use pictures to communicate their needs. Pictures are text encoded.

Green Eggs and Ham – Dr. Seuss, by Oceanhouse Media

This eBook has professional narration, background audio and digital artwork for each scene. To promote reading in young children, individual words are highlighted as the story is read and words zoom up when pictures are touched.

iCommunicate for the iPad, by Grembe Inc.

Create pictures, flashcards, storyboards, routines, and visual schedules. Popular app for children on the autism spectrum.
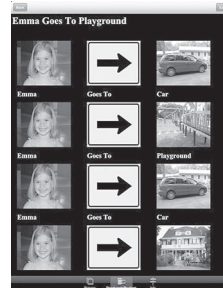

iConverse Assisted Communication, by Xcellent Creations, Inc.

This simple application allows parents, teachers and caregivers to understand the basic needs and wishes of individuals who are unable to communicate verbally.

Model Me Going Places, by Model Me Kids, LLC

A social storybook designed to prepare children with autism for visiting public spaces and community places.
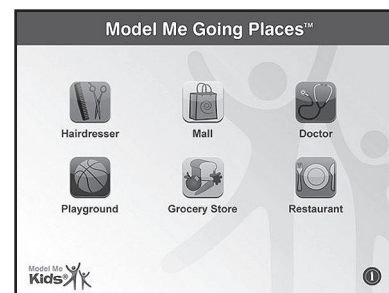

My Friend Isabelle, by Eliza Woloson, illustrated by Bryan Gough. PicPocket Books

Isabelle is a child with Down syndrome. This story is about her busy days in the neighborhood with her best friend, Charlie. A personal interactive storybook for children ages 2-8.
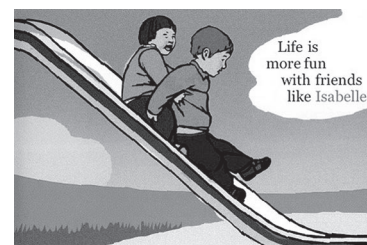

My Talk Mobile/My Talk Workspace, by 2nd Half Enterprises LLC

Augmentative, alternative communication (AAC) software that allows you to customize communication through images, pictures, symbols and audiofiles.

Proloquo2Go, by AssistiveWare
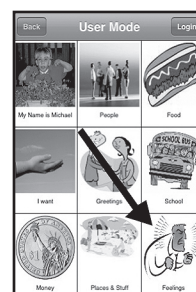

A full-featured augmentative and alternative communication solution for people who have difficulty speaking. It provides natural sounding text-to-speech voices , up-to-date symbols, powerful automatic conjugations, and a default vocabulary of over 7000 items.

Signing Time® ASL – Sign Language, by CMGDev, LLC

48 signs and 6 music videos from Signing Time®, vol. 1 & 2.

Speak it! Text to Speech, by Future Apps, Inc.

Copy and paste your e-mails, daily news articles, documents and more into Speak it! and have the text read to you while you exit the app to do other tasks on your iPod.

Stories2Learn (S2L), by MDR
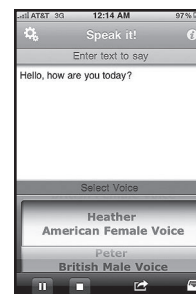

A parent or an educator can easily create personalized stories for young reader enjoyment, as well as for teaching social skill. Authors can add their own audio and write dialogue that corresponds to the photos. S2L can also be used for visual schedules and other supports for children on the autism spectrum and for those with nonverbal learning disorder (NLD).

Talk to Me – Text to Speech, by Chris Chauvin
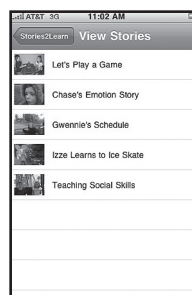

"Talk to Me" 2.2 speaks words as you type them or it will read copy buffered documents and articles to you at a speed of your choosing. See the youtube demonstration of this product at: http://www.youtube.com/watch?v=MLLfllxyTY8.
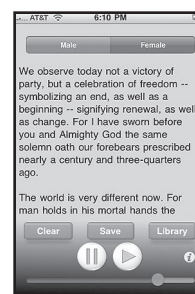

TapSpeak Button, by Ted Conley

Reinvention of the switch that records and plays back messages. The populations that will most benefit from this product are those with cerebral palsy, autism, cortical vision impairment and stroke.

Requires an attached microphone.

Tap to Talk, by Assistyx LLC

Images covering topics about which your child needs and wants to communicate. Each of the 2000 pictures in the Tap to Talk library are linked to another screen of pictures that makes communication more like a game for the user. You can add your own pictures and sounds.
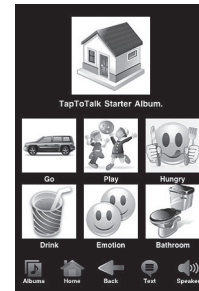

Time Timer, by Time Timer LLC

A time elapse visual disc that provides sensitive time management solutions for individuals with ADHD, autism, and other special needs.
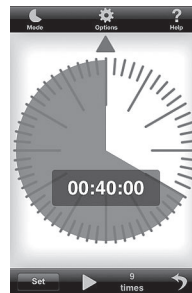

Voice4u, by Spectrum Visions.

Voice4u uses 130 pre-loaded icons to help individuals who have difficulty with spoken communication as a result of a stroke or a brain injury. The gently formed icons are also appealing to individuals on the autism spectrum.
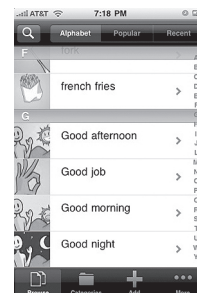

Web Reader – Text to Speech, by Chris Chauvin

No need to paste text into a copy buffer with Web Reader. The app uses web page content recognition to read web pages to you direct from the screen.

Local notes: Preloaded with Co-Writer applet, version A1.6.

IntelliKeys USB Keyboard / IntelliTools, Inc.

Call number: EQUIP 004.7 Int

Barcode: 4791

Edition: .3.0.1.

Summary: A programmable alternative keyboard for students or adults who have difficulty using a standard keyboard.

System requirements for Windows: Win 98, ME (32 MB RAM), 98SE, 000, XP; 13 MB free hard drive space; 32 MB RAM (Win 98/ME); 64 MB (Win 2000/XP) USB port; CD-ROM drive.

System requirements for Macintosh: OS 8. 6, 9.x, 10.1 or higher; 4.56 MB RAM; 14 MB free hard drive space; USB port; CD-ROM.

Impulse Switch/AbleNet   COMP PERIPH

Call number: EQUIP 610.28 Big

Barcode: 5342

Summary: The Impulse switch takes the place of a keyboard and mouse and enables paralized individuals to control their computer. The EMG (Electromyography) sensing electrode attaches to the user's skin and senses muscle activity.   When activity is detected, a switch "hit" is passed to software which in turns   controls the computer.

Joystick Plus / Penny & Giles Computer Products.

Call number: EQUIP 004.76 Joy

Barcode: 2689

Edition: PC version.

Summary: A mouse alternative for people with severe motor difficulties.

System requirements: IBM compatible unit with 9-pin "D" shaped mouse jack.

KidTRAC / MicroSpeed.

Call number: EQUIP 004.76 Kid

Barcode: 5343

Edition: PC version.

Summary: The trackball cursor dynamically accelerates across the screen as the mouse ball is turned, no hand, arm or wrist movements are required.

System requirements: compatible with most software, however if your old mouse was a 3 button device, you need to switch drivers in Windows to either a serial mouse, or standard PS/2 mouse. Sticker on mouse: SAM (switch-adapted mouse). USB cable.

Labtec Axis-502 Deluxe Stereo Headset with Boom/**microphone** / Labtec.

Call number: EQUIP 621.38284 Lab

Barcode: 2685

Summary: A speaker headset designed for voice recognition software.

LessonBoard / Chest Creek Technologies.

Call number: EQUIP 004.7 Les

Barcode: 4769

Summary: Correct keyboarding can open a whole new world of discovery for anyone with cognitive or physical differences that restrict learning. The LessonBoard is color-coded by finger and designed to teach correct keyboarding.

System requirements: IBM PC; USB-PS2 connector combo.

NEO 1 / AlphaSmart.

Call number: EQUIP 005.72 Neo

Barcode: 4803

Summary: Write, edit, and store text at any location quickly and conveniently. NEO integrates with your computer and prints directly to your printer.

System requirements for Windows: Pentium PE 450 MHz or faster; WIN 2000, XP, or Vista; 128 MB RAM; 40 MB hard drive space; CD-ROM drive; pointing device, printer, USB Port required.

System requirements MAC: Power PC G3 450 MHz or faster; operating system 10.3.9, 10.4.x, 10.5.x; 128 MB physical RAM; 40 MB hard drive space; CD-ROM drive; pointing device; printer, USB Port required.

PEARL Portable Reading Solution / Freedom Scientific

Call Number: EQUIP Pearl

Summary: OpenBook software brings blind and low vision users instant portable access to printed material with an array of sounding voices. The folding camera deploys in seconds to connect to your PC and snap a picture of your material. Use the PEARL to read all kinds of documents from books and newspapers to bills. Export to other applications like Microsoft® Word or Notepad.

System requirements:

All 32-bit versions of Windows XP and Windows Server 2003, all 32- and 64-bit versions of Windows Vista, and all 32- and 64-bit versions of Windows 7 and Windows Server 2008. Processor speed 500 MHz Intel® Pentium® or faster Memory (RAM)

256 MB (512 MB recommended) 1.2 GB.

Planar Touch 15" Touch Screen LCD Monitor / Planar Systems, Inc.

Call Number: EQUIP Planar

Summary: Resistive touchscreen that recognizes touch input from finger or stylus. Self-standing monitor.

System requirements: Windows® 7, Vista, XP, ME, 98, NT 4.0, CE, XP Embedded; Apple® Mac OS; Linux, HID Compliant – no drivers needed for basic touchscreen operation. Includes power adapter, power cord, USB cable, RS-232 cable, and touchscreen driver installation CD-ROM.

PointSmart/Infogrip   SOFTWARE

Call number: EQUIP 004.76 Poi

Barcode: 5363

Summary: The first mouse driver enhancement software that makes any mouse, trackball, touchpad, joystick or any other pointing device accessible for users with physical limitations.

Roller Plus Joystick / TRAXSYS Imput Products

Call number: EQUIP 004.76 Rol

Barcode: 4961

Summary: Adaptable mouse with interchangeable handles for users who have difficulties with a conventional mouse.

Technical: Six buttons that support left and right click, double click, drag lock, horizontal and vertical lock and cursor speed control. Includes a key guard to help users isolate on the buttons. The joystick comes with a T-bar and ball guide. Switches can be easily connected to emulate the mouse buttons with the included Roller Plus switch box.

SAM Joystick / RJ Cooper & Assoc.

Call number: EQUIP 152.3 Joy, Joy cop.1

Barcode: 4171

Summary: SAM Joystick has a click, double click, and drag switch inputs. When you push the stick, the cursor does not go flying, no matter what the user does. It simply moves in that direction at a given speed, controllable by accompanying software. Assists with practicing joystick skills for power mobility training or computer use. Starts at very early motor and cognitive level with progression.

System requirements for Windows: Widows 1.2 or higher. System requirements for Macintosh: OS X 10.2.4 or greater.

TouchWindow / Pro-ed.

Call number: EQUIP 004.7 Tou Win

Barcode: 2999

Edition: Win/Mac 17" monitor

Summary: a multipurpose input device that performs as a touch screen, graphics tablet or keyboard substitute. With the touch of a finger you can make selections, move objects, pull down menus and draw graphics.

System requirements: USB-ready, hard disk with 10 MB free, 32 MB memory, 256 colors or more, CD-ROM drive.

TouchWindow / Pro-ed.

Call number: EQUIP 004.7 Tou Win

Barcode: 2633

Edition: Win 9-15" monitor

Summary: Touch input for PC software applications.

System requirements: any IBM or compatible computer; 9 to 15" monitor (TouchWindow will not fit 17" or larger monitor); disk drive, serial port.

ViVo Mouse: Headtracking Technology with Speech /
Vortant Technologies

Call Number: EQUIP ViVo

Summary: Complete hands free control of your PC. The ViVO Mouse uses webcam video, which means you can stay free of unneeded attachments – there are no headsets and no dot matrixes to apply, simply move your head or speak to the device. Because the equipment is attached to the computer and not the user, this device can easily be shared among multiple users on the same computer with minimal adjustments.

System requirements: Windows® XP, Vista, and Windows® 7.

WinMini / Tash, Inc.
Call number: EQUIP 005.7 Win

Barcode: 2627

Summary: A compact, alternative keyboard for one-hand or preferential hand keying.

System requirements: IBM or compatible computer with 6 pin din standard keyboard port and 9 pin serial port Windows 95 or 98 Microsoft serial mouse driver.

Local Notes: "QRTY" keyboard.

The Writer Fusion / Advanced Keyboard Technology, Inc.
Call number: EQUIP 005.72 Fus

Barcode: 4960

Summary: Portable talking keyboard with built-in text-to-speech capabilities. Speaker included. Excellent for learning disabilities and students with fine motor difficulties.

Education

AbleNet Bookworm / AbleNet, Inc.

Call number: EQUIP 371.3 Abl

Barcode: 3713

Summary: A battery operated reading machine literacy tool which enables students with disabilities to follow along with up to four picture books previously recorded by a teacher, parent or adult. May record any children's book up to 32 p. in length.
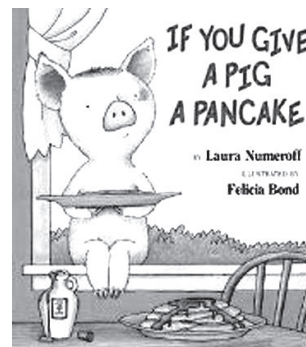

AbleNet Bookworm Accessories

- **If You Give a Pig a Pancake** / by Laura Numeroff.

  Call number: EQUIP 371.3 If

  Barcode: 3511

  Summary: One thing leads to another when you give a pig a pancake.

  Local notes: Accompanies Ablenet Bookworm story reading hardware.

- **Silly Sally** / by Audrey Wood.

  Call number: EQUIP 371.3 Woo

  Barcode: 3510

  Summary: A rhyming story of Silly Sally, who makes many friends as she travels to town--backwards and upside down.

  Local notes: Accompanies Ablenet Bookworm story reading hardware.

- **That's Life : Literature Series** / AbleNet

  Call number: EQUIP 371.3 Tha

  Barcode: 4388

  Summary: High interest, easy-to-read stories designed for secondary students with cognitive disabilities. Can be used with AbleNet Bookworm.
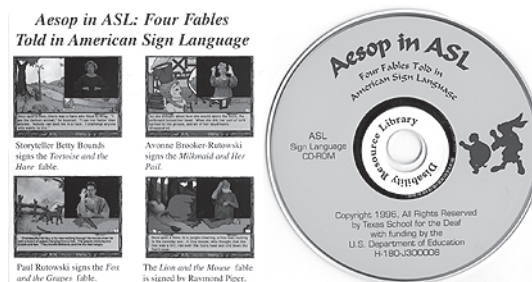

Aesop in ASL : Four Fables Told in American Sign Language / by Texas School for the Deaf

Call number: EQUIP 398.245

Barcode: 2127

Summary: Features four Aesop fables in ASL. At the end of each story there are five activities that enable the user to improve his or her skills in using pronouns, sequencing, reading comprehension, synonyms, and vocabulary.

Children's Speller and Dictionary / Franklin Electronic Publishers.

Call number: EQUIP 428.1

Barcode: 4962

Summary: Handheld dictionary and speller offering 40,000 definitions and spell correction for over 46,000 words. Also offers cursive animation feature, games and calculator.

Technical: Requires four AAA batteries.

ClassMate Reader / HumanWare.

Call number: EQUIP 372.412 Clas cop.1

Barcode: 4804

Summary: Designed for people with reading difficulties, this hand held device allows students to listen to textbooks and study materials while following highlighted text on the screen. Study tools include items such as bookmarks, recorder, highlighting function and a speaking dictionary.

Technical: System reads DAISY, NIMAS, NISO, txt, xml, and html files. This particular software version does not include playback of MP3 files.

Note: In-library use only due to license restrictions.

Language Tool Kit / Educators Publishing Services.

Call number: EQUIP 372.632 Lan

Barcode: 4955

Summary: Presents initial and final vowel and consonant combinations and word roots for beginning spellers and those with learning difficulties such as dyslexia.

ReadingPen / WizCom Technologies, Inc.

Call number: EQUIP 372.462 Rea

Barcode: 4485

Edition: 1.0.

Summary: ReadingPen optically scans printed words or lines, displays print on screen in large characters, reads and spells words aloud and displays and speaks definitions.

Technical: Scans single words or full lines of text; includes intuitive user-friendly interface and built-in tutorial; displays syllable breaks, definitions, synonyms and translations of the scanned text on the LCD screen; reads the scanned text aloud, including definitions and synonyms; spells out scanned words; includes built-in speaker andheadphones; includes K-12 grade dictionaries; recognizes over 250,000 words.

Sony TCM-929 Pressman Desktop Cassette Recorder /
Sony Corp of America

Call number: EQUIP 681.843 Son

Barcode: 2688

Summary: Cassette recorder with built-in microphone and speaker, full automatic shut-off, built-in handle, one-touch recording, microphone jack, headset jack, and three-digit tape counter.

System requirements: DC 6V with "AA" x 4 batteries; AC 120V 60 Hz.

Talking Calculator / Attainment Company

Call number: EQUIP 681. 145

Barcode: 4959

Summary: Speech output calculator voices numeric and calculations in easy to understand English.

■ Start to Finish Books

The Adventures of Huckleberry Finn by [Mark Twain]; retold by John Matern / Don Johnston.
